Objectives:

Investment Objectives: The investment objective of the Fund is to seek long-term growth of capital by investing primarily in equity and similar securities issued by companies with exposure to emerging market countries.

Investment Approach: The Fund will invest primarily in equity and similar securities listed on recognised markets of emerging market countries or in securities listed in developed markets where the underlying business has significant exposure to emerging markets. The Fund will invest in companies which it believes show a variety of positive indicators, such as a sustainable competitive advantage over other similar companies, excellent management, a strong financial history and outlook and a proven track record of quality growth. The Fund may also invest in other asset classes, including, but not limited to, debt securities and interest rates. The Fund may increase its holding in cash and other liquid assets at times of market turbulence. The debt securities in which the Fund invests may be issued by a government or other entity, have a fixed or floating rate of interest and will be rated investment grade. The Fund will invest in assets which the Investment Manager believes are more likely to achieve its investment objective of long-term growth of capital. ESG-related risks are also taken into consideration in selecting investments and the Fund invests in companies that demonstrate good corporate governance practices in terms of management structure and remuneration, high quality reporting, combined with strong environmental and social commitments. The Fund promotes environmental and social characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation. For more details please refer to the Fund supplement.

The Investment Manager has complete discretion in making investments and is not constrained by the Benchmark. The Benchmark is used for performance comparisons purposes only. The Investment Manager may consider, for example, sector weights, country weights and tracking error in each case relative to the Benchmark but does not use the Benchmark as an investment limitation.

The Fund may use financial derivative instruments (i.e. instruments whose prices are dependent on or more underlying assets, "FDI"), FDI, and assets in which the Fund may invest which embed FDI, may allow the Fund to obtain market exposure in excess of the value of the Fund's assets (leverage). Income and capital gains from the Fund are reinvested.

Hedging: The Fund does not intend to engage in currency hedging at the Fund level or at Class level. Accordingly, Classes may have foreign currency exposure to the assets of the Fund that are not denominated in the relevant Class Currency.

WHAT HAPPENS IF GUARDCAP ASSET MANAGEMENT LIMITED IS UNABLE TO PAY OUT?

RBC Investor Services Bank S.A., Dublin Branch (The "Depositary") will perform safekeeping duties for the Fund's assets. In the event of the insolvency of the Manufacturer (GuardCap Asset Management Limited), the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss.
